THIS IS WHAT YOU’RE FLYING
HOW CAN I FLY SAFE?
SAFETY GUIDELINES

- Fly in the daylight
- Stay under 300-400 feet
- Establish a direct line-of-sight
- Don’t fly within 3-5 miles of ATC
- Don’t fly in national parks
- Don’t fly directly over people
- Be smart around sensitive metropolitan and government areas
- Give way to all crewed aircraft
FAILSAFES
(WHAT CAN GO WRONG)
3DR SOLO FAILSAFES
